

# TEMPORARY LIFELINE SYSTEM

**Product Code: BK040020**

**Description:** Temporary Lifeline System

## Features

- Portable static line system
- Allows freedom of movement up to 20 metres
- Designed for a maximum of one persons
- Simple and easy to install fall arrest protection
- Ideal for situations which do not justify a permanent safety system
- Use in conjunction with retracting lanyards and full body harnesses
- Installation takes about 3-5 minutes
- No special tools are required to install or tension the system

## Material and Construction

- 25 metres or 46mm heavy duty web
- 1 x web ratchet tensioner
- 1 x PVC storage bag

## Application and Usage

- For use as a horizontal fixed safety line to prevent falls when working at heights on construction, building and mine sites
- Attach above head height
- Note: Minimum heights for installation

## Testing and Quality Control

- 100% visual inspection
- Individual components batch tested to destruction
