PERFORMANCE SYSTEMS

radiatorTECH™

Manufacturing and design principles which allow breathability and natural air movement keeping your body cooler while you work.

articulatedFIT™

A body design system to allow natural bio mechanical movement of the lower body enhancing zonal flexibility.

ANTI-STATIC

Garments made from fabrics that minimise the static build up in volatile environments. This is a safety requirement for most electricians.

REFLECTIVE

Garment contains retro-reflective material to improve visibility in low light conditions.
